

Behind the kitchen Door: A storry of Labour and Loss

Adil Amman, Modern Indian Studies

Behind the Kitchen Door:

A Story of Labour and Loss

A documentary that explores the hidden realities of migrant labour in Indian restaurants in Germany, with an emphasis on wage theft, poor working conditions, and the lack of legal protection.

We seek to highlight structural inequalities by documenting six first hand accounts- worker stories, as well as the viewpoints of employers, activists, and union officials.
